---

## Career Objective

Motivated and detail-oriented fresher aspiring **Data Analyst**, with strong foundation in **Python, Pandas, SQL**, and data visualization. Seeking an internship or entry-level role to apply analytical skills on real-world datasets and grow professionally.

---

## Technical Skills

- **Programming:** Python (Basics to Intermediate)
- **Libraries:** Pandas, NumPy, Matplotlib, Seaborn
- **Database:** SQL (SELECT, WHERE, JOIN, GROUP BY)
- **Tools:** MS Excel (Pivot Table, VLOOKUP/XLOOKUP), Power BI, Jupyter Notebook
- **Data Skills:** Data Cleaning, Data Analysis, Basic Statistics

---

## Projects

### Sales Data Analysis Project

- Analyzed sales dataset using Python and Pandas
- Cleaned missing and duplicate values
- Performed month-wise and product-wise analysis using groupby
- Created visualizations using Matplotlib and Seaborn

### Student Performance Analysis

- Worked on CSV dataset of student marks
- Calculated average, highest, and lowest scores
- Identified performance trends using Python

---

## Education

### Bachelor of Computer Applications (BCA)

SJK College Kalanaur / MDU Rohtak

Year: 2024– 2028

---

## Internship / Training

- Currently seeking **Data Analyst Internship**
- Completed self-learning and hands-on practice in Python & SQL

---

## Strengths

- Quick learner with strong problem-solving skills
- Comfortable with Hindi, Hinglish, and basic English communication
- Good analytical and logical thinking

---

## Declaration

I hereby declare that the above information is true to the best of my knowledge.
